WORK EXPERIENCE

Full Stack Web Developer (intern)

June 2025–June 2026

NsDataWebx Technology, Gaziyaabad, Uttar Pradesh (Startup)

- Engineered full-stack web apps using **React.js** (frontend) and **Node.js + Express.js** (backend) with scalable MVC architecture.
- Designed and deployed **RESTful APIs** enabling smooth data exchange between client and server with optimized response times.
- Managed **MySQL databases** — schema design, query optimization, and CRUD operations for live production data.
- Implemented **JWT-based authentication** with secure login, session management, and protected route handling.
- Collaborated via **Git & GitHub** using feature branching, pull requests, and code reviews in a team environment.

PROJECTS

OnlineShopX—E-Commerce Platform

Jan 2026–June 2026

Stack: React.js, Node.js, Express.js, MySQL, JWT

- Built a complete online store with **product catalog**, **cart**, **order management**, and admin dashboard from scratch.
- Architected **React.js frontend** with component-based design, protected routes, and fully responsive layout.
- Developed **10+ REST API endpoints** in Node.js/Express.js for products, users, orders, and authentication.
- Optimized **MySQL queries** for product search and order history, improving data retrieval performance.

QuoteX—Quotation Management System

sep–Dec 2025

Stack: React.js, Node.js, Express.js, MySQL

- Built an end-to-end business tool streamlining the **quotation lifecycle**—creation, review, approval, and tracking.
- Designed interactive **React.js dashboard** with dynamic forms, status filters, and real-time updates.
- Developed **role-based API endpoints** with admin approval and client view access permissions.
- Structured **MySQL relational schema** with foreign keys linking clients, products, and quotation records.
